COMMERCIAL.

In monetary affairs, we have but little change Monetary. to notice since our last report. Trade has been to notice state the week, and our retail merchants have done a large business. The supply of money is abundant, and very little first class paper finds its way to the street. The Benks per name an abundant supply of money, and are discounting freely. In Baltimore, Philadelphia, New York, and Boston, money is quoted very The Boston banks now have in their vaults eight millions four hundred and sixty. the thousand dollars in specie. This is a uecrase of a little over four hundred thousand dollars from the first of the month, but more than double the amount at the same period last var. In New York, the money and stock markets exhibit so little variation as to be scarcely worthy of notice. In Bank stocks the sales were active, but very little was done in State securities. Virginia sixes receded a little, being 34. Missouri's sold at 84%. Gold from the Frase river region, or as it must now be called, British Columbia, is beginning to arrive quite freely in San Francisco. The largest arrival reported is by the steamer Pacific, which came in on the 25th uit., from Victoria, with \$75,979. Local Stocks continue very quiet, and the transactions are to such a limited extent that rehable quotations cannot be given. Land Warrants are still at a low rate: 40

The improvements consist of a good The improvements consist of a good substantial BARN, nearly new, and a small FAAME DWELLING HOUSE, the latter not yet finished. The enclosure is almost wholly of

ost and rail tence.

The soil is one of the very best, having a fine ia.k enocolate surface, easy to cultivate, with ich, deep, dark, clay loamy subsoil, admirably dapted to all Gardening purposes, (with eastern nd southern slopes for early vegetables.) as well as all kinds of graits and grasses, a Grapery, or Nursery, &c., &c. Upon this FARM, here are three never failing SPRINGS, all of which stood the test of 1854-one of them by pipes under ground, at a trifling expense, can be asily conveyed into the cellar of the dwelling house, for family and dairy purposes, after which, orducted to the stable, cow-shed, &c.

There is likewise a small stream of water canning through the upper part of the FARM, at the base of the southern slope, affording ample means for all purposes of a Hot-House, Celry Beds, (for which last purpose the valley through which this stream passes is admirably adapted.) as well as for all other Gardening

For a river farm, it has been unusually healry, the subscriber having had upon it for two ears, a family of from six to seven persons, and uring that time never had occasion to call in a physician.—The location of this farm, along side of, and adjoining to the city of Alexandria, its soil and productions—the last named is evidenced by the present growing crop of corn upon itthe new, substantial, and permanent bridge, just erectal over Hunting Creek, affording at all times a sue and certain road to and from Market-the new Turnpike and Mount Vernon roads forming its eastern boundary, render this farm well worth the attention of all persons in want of either a market, or a dairy farm, or
